The police shooting of Damond was tragic and avoidable.

That said, this settlement (20M) is more than quadruple any settlement in a prior police shooting in Minneapolis

Important to ask whether the race of the victim (white) and race of the cop (Black) were factors.

In 2018, 90K Black voters in Tennessee were registered by advocacy groups, churches & others. Now lawmakers want to chill these efforts with a #votersuppression law that threatens criminal penalties and fines.

We're suing TN officials to BLOCK this.

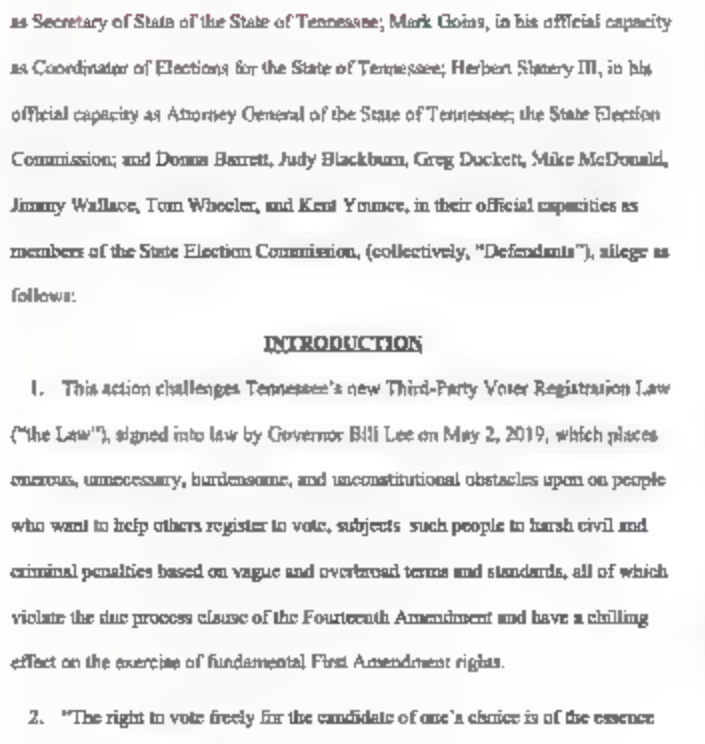
BREAKING: We're suing Tennessee for adopting one of the most restrictive voter suppression measures of 2019

The law imposes criminal penalties and unnecessary restrictions on groups that register people to vote. TN has one of the lowest registration rates in the US. @LawyersComm



as Secretary of State of the State of Tennessee; Mark Goins, in his official capacity as Coordinator of Elections for the State of Tennessee; Herbert Slatery III, in his official capacity as Attorney General of the State of Tennessee; the State Election Commission; and Donna Barrett, Judy Blackburn, Greg Duckett, Mike McDonald, Jimmy Wallace, Tom Wheeler, and Kent Younce, in their official capacities as members of the State Election Commission, (collectively, "Defendants"), allege as follows:

INTRODUCTION

1. This action challenges Tennessee's new Third-Party Voter Registration Law ("the Law"), signed into law by Governor Bill Lee on May 2, 2019, which places onerous, unnecessary, burdensome, and unconstitutional obstacles upon on people who want to help others register to vote, subjects such people to harsh civil and criminal penalties based on vague and overbroad terms and standards, all of which violate the due process clause of the Fourteenth Amendment and have a chilling effect on the exercise of fundamental First Amendment rights.

2. "The right to vote freely for the candidate of one's choice is of the essence

30 yrs ago, Trump ran this ad in NY papers

Trump wrote: "I want to hate these muggers and murderers. They should be forced to suffer and when they kill, they should be executed.."

The #CentralParkFive, all young Black boys, were wrongfully convicted & released several yrs later

THE DEATH PENALTY.

BRING BACK OUR POLICE!

What has happened to our City over the past ten years? What has happened to law and order, to the neighborhood cop we all trusted to safeguard our homes and families, the cop who had the power under the law to help us in times of danger, keep us safe from those who would prey on innocent lives to fulfill some distorted inner need. What has happened to the respect for authority, the fear of retribution by the courts, society and the police for those who break the law, who wantonly trespass on the rights of others? What has happened to the complete breakdown of life as we knew it.

Many New York families — White, Black, Hispanic and Asian — have had to give up the pleasure of a leisurely stroll in the Park at dusk, the Saturday visit to the playground with their families, the bike ride at dawn, to just unplug on their stoops — given them up as hostages to a world ruled by the law of the streets. As roving bands of wild criminals roam our neighborhoods, dispensing their own vicious brand of twisted justice on whomever they encounter. At what point did we cross the line from the fine and noble pursuit of genuine civil liberties to the reckless and dangerously permissive atmosphere which allows criminals of every age to beat and rape a helpless woman and then laugh at her family's anguish? And why do they laugh? They laugh because they know that soon, very soon, they will be returned to the streets to rape and maim and kill once again — and they should be executed for their crimes. They must serve as examples so that others will think long and hard before committing a crime or an act of violence. Yes, Mayor Koch, I want to have these murderers and I always will. I am not looking to psychoanalyze or understand them, I am looking to punish them. If the punishment is strong, the attacks on innocent people will stop. I recently watched a newscast trying to explain the "anger in these young men". I no longer want to understand their anger. I want them to understand our anger. I want them to be afraid.

How can our great society tolerate the continued brutalization of its citizens by crazed misfits? Criminals must be told that their CIVIL LIBERTIES END WHEN AN ATTACK ON OUR SAFETY BEGINS!

When I was young, I sat in a dance with my father and witnessed two young hellions cursing and threatening a very frightened matron. Two cops rushed in, lifted up the thugs and threw them out the door, warning them never to come outside again. I miss the feeling of security New York's finest once gave to the citizens of this City.

Let our politicians give back our police department's power to keep us safe. Unshackle them from the constant chant of "police brutality" which every petty criminal hurls immediately as an officer who has just risked his or her life to save another's. We must cease our continuous pandering to the criminal populace of this City. Give New York back to the

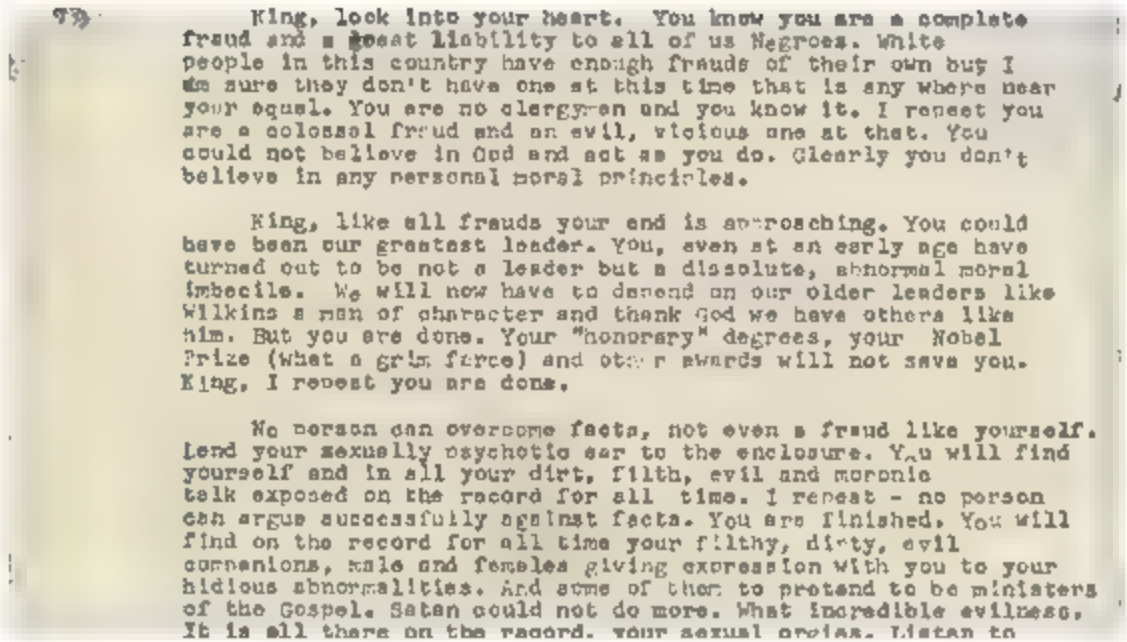
OTD 1971 the FBI officially ends COINTELPRO.

COINTELPRO targeted Dr. MLK for his civil rights activity and even sent this letter to try and get him to commit suicide.

Today the government continues to target Black activists with its FAKE Black Identity Extremism designation.



King, look into your heart. You know you are a complete fraud and a great liability to all of us Negroes. White people in this country have enough frauds of their own but I am sure they don't have one at this time that is any where near your equal. You are no clergyman and you know it. I repeat you are a colossal fraud and an evil, vicious one at that. You could not believe in God and act as you do. Clearly you don't believe in any personal moral principles.

King, like all frauds your end is approaching. You could have been our greatest leader. You, even at an early age have turned out to be not a leader but a dissolute, abnormal moral imbecile. We will now have to depend on our older leaders like Wilkins a man of character and thank God we have others like him. But you are done. Your "honorary" degrees, your Nobel Prize (what a grim farce) and other awards will not save you. King, I repeat you are done.

No person can overcome facts, not even a fraud like yourself. Lend your sexually psychotic ear to the enclosure. You will find yourself and in all your dirt, filth, evil and moronic talk exposed on the record for all time. I repeat - no person can argue successfully against facts. You are finished. You will find on the record for all time your filthy, dirty, evil companions, male and females giving expression with you to your hidious abnormalities. And some of them to pretend to be ministers of the Gospel. Satan could not do more. What incredible evilness. It is all there on the record, your sexual orgies. Listen to

Make no mistake, this is #VoterSuppression.

We stand with groups across Tennessee in opposition to this latest attempt to chill voter registration efforts across a state that has one of lowest voter turnout rates in the country.

We're at the #SCOTUS today in the fight for a #FairCensus

A citizenship question hasn't appeared on the Census in more than 6 decades

It was added after push by Steve Bannon & Kris Kobach

It's intended to deter participation among people of color

Secy Wilbur Ross LIED about why he added the #citizenshipquestion. He claimed he added it at the request of the Justice Dept. who wanted it to help enforce the Voting Rights Act

DOJ has not brought a single VRA case and could care less about voting rights. This was a cover story

Steve Bannon pushed and lobbied for the #citizenshipquestion on the #2020Census at every turn. This is about power and discouraging Census participation among communities of color.

The Supreme Court must reject this and ensure a fair and lawful census. #CountMeIn

Do you have plans following the newseum? I'm asking because Steve Bannon has asked that the Secretary talk to someone about the Census and around 7-7:30 pm is the available time. He could do it from the car on the way to a dinner ...

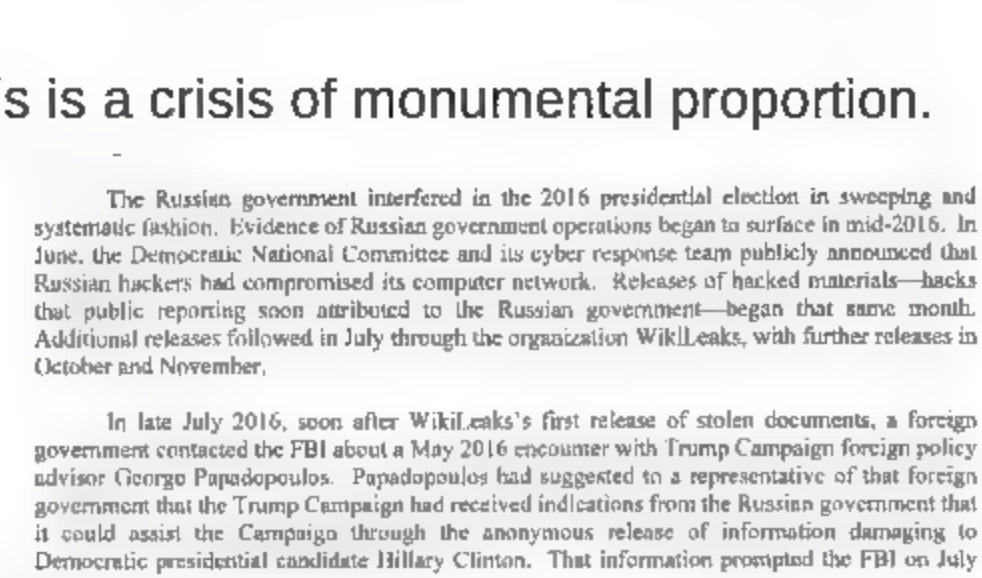
There are 565 days until the November 2020 election and countless elections before then.

This is a crisis of monumental proportion.



The Russian government interfered in the 2016 presidential election in sweeping and systematic fashion. Evidence of Russian government operations began to surface in mid-2016. In June, the Democratic National Committee and its cyber response team publicly announced that Russian hackers had compromised its computer network. Releases of hacked materials—hacks that public reporting soon attributed to the Russian government—began that same month. Additional releases followed in July through the organization WikiLeaks, with further releases in October and November.

In late July 2016, soon after WikiLeaks's first release of stolen documents, a foreign government contacted the FBI about a May 2016 encounter with Trump Campaign foreign policy advisor George Papadopoulos. Papadopoulos had suggested to a representative of that foreign government that the Trump Campaign had received indications from the Russian government that it could assist the Campaign through the anonymous release of information damaging to Democratic presidential candidate Hillary Clinton. That information prompted the FBI on July

By that logic ALL instances of the federal govt stepping in where states have failed is a "waste of govt resources."
So the Dylann Roof prosecution and James Alex Fields would also be a "waste."
And we know that's not true.
Shouldn't we know WHY Kim Foxx tanked this case?

The Honorable Doug Collins

Washington, DC 20515

Dear Chairman Graham, Chairman Nadler, Ranking Member Feinstein, and Ranking Member Collins:

As a supplement to the notification provided on Friday, March 22, 2019, I am writing today to advise you of the principal conclusions reached by Special Counsel Robert S. Mueller III and to inform you about the status of my initial review of the report he has prepared.

The Special Counsel's Report

On Friday, the Special Counsel submitted to me a "confidential report explaining the prosecution or declination decisions" he has reached, as required by 28 C.F.R. § 600.8(c). This report is entitled "Report on the Investigation into Russian Interference in the 2016 Presidential Election." Although my review is ongoing, I believe that it is in the public interest to describe the report and to summarize the principal conclusions reached by the Special Counsel and the results of his investigation.

The report explains that the Special Counsel and his staff thoroughly investigated allegations that members of the presidential campaign of Donald J. Trump, and others associated with it, conspired with the Russian government in its efforts to interfere in the 2016 U.S. presidential election. It sought to determine the related federal investigations. In the report, the Special Counsel noted that, in completing his investigation, he employed 19 lawyers who were assisted by a team of approximately 40 FBI agents, intelligence analysts, forensic accountants, and other professional staff. The Special Counsel issued more than 2,800 subpoenas, executed nearly

Fix the process. Reliance on a single, high-stakes, unvalidated test that speaks nothing about an individual's talent, skills, leadership ability, intellectual acumen, and the diversity they'd bring to the learning environment, that frankly all kids benefit from, is USELESS.

BREAKING: We must continue the fight to end mass incarceration and address collateral consequences.

Today @CoryBooker introduces the Next Step Act which would reduce mandatory minimums, Ban the Box, prohibit racial profiling, end federal prohibition on marijuana and more.

pecifically, the Next Step Act would:

- Reduce harsh mandatory minimums for nonviolent drug offenses: the 20-year mandatory minimum would be reduced to 10 years, the 10-year mandatory minimum would be reduced to 5 years, and the 5-year mandatory minimum would be reduced to 2 years.
- Eliminate the disparity between crack and powder cocaine sentences (currently it is 18:1)
- End the federal prohibition on marijuana, expunge records, and reinvest in the communities most harmed by the War on Drugs.
- "Ban the Box" by prohibiting federal employers and contractors from asking a job applicant about their criminal history until the final stages of the interview process, so that formerly incarcerated individuals get a fairer, more objective shot at finding meaningful employment.
- Removing barriers for people with criminal convictions to receiving an occupational license for jobs, such as hair dressers and taxi drivers.
- Reinstate the right to vote in federal elections for formerly incarcerated individuals (blacks are more than four times as likely than whites to have their voting rights revoked because of a criminal conviction).
- Create a federal pathway to sealing the records of nonviolent drug offenses for adults and automatically sealing (and in some cases expunging) juvenile records.
- Ensure that anyone released from federal prison receives meaningful assistance in obtaining a photo-ID, birth certificate, social security card, or work authorization documents.
- Improve the ability of those behind bars to stay in touch with loved ones, by banning the practice of charging exorbitant rates for phone calls (upwards of $400-$500 per month) and ensuring authorities take into consideration where someone's kids are located when placing them in a federal facility, a circumstance that acutely impacts women since there are far fewer women's prisons than men's prison.
- Provide better training for law enforcement officers in implicit racial bias, de-escalation, and use-of-force.
- Ban racial and religious profiling.
- Improve the reporting of police use-of-force incidents (currently the Department of Justice is required to report use-of-force statistics to Congress, but states and local law enforcement agencies are not required to pass that information on to federal authorities, creating a significant gap in data that could be used to improve policies and training).

BREAKING: Supreme Court issues ruling finding that 8th Amendment's ban on excessive fines applies to states. Excessive fines undermine other liberties.

Justice Ginsburg writes opinion joined by all justices except Thomas who files his own concurring opinion

Today, acknowledgment of the right's fundamental nature remains widespread. As Indiana itself reports, all 50 States have a constitutional provision prohibiting the imposition of excessive fines either directly or by requiring proportionality. Brief in Opposition 8–9. Indeed, Indiana explains that its own Supreme Court has held that the Indiana Constitution should be interpreted to impose the same restrictions as the Eighth Amendment. *Id.*, at 9 (citing *Norris* v. *State*, 271 Ind. 568, 576, 394 N. E. 2d 144, 150 (1979)).

For good reason, the protection against excessive fines has been a constant shield throughout Anglo-American history: Exorbitant tolls undermine other constitutional liberties. Excessive fines can be used, for example, to retaliate against or chill the speech of political enemies, as the Stuarts' critics learned several centuries ago. See *Browning-Ferris*, 492 U. S., at 267. Even absent a political motive, fines may be employed "in a measure out of accord with the penal goals of retribution and deterrence," for "fines are a source of revenue," while other forms of punishment "cost a State money." *Harmelin* v. *Michigan*, 501 U. S. 957, 979, n. 9 (1991) (opinion of Scalia, J.) ("it

The absentee ballot scheme in #NC09 shows the fallout from the 2013 #SCOTUS ruling that cut out the heart of the Voting Rights Act. Officials no longer are subject to federal review and brazenly steal and suppress votes. We need restoration of the VRA now.

Congress should act now and send a strong message to Trump by passing a joint-resolution in the House and Senate to terminate this #FAKENationalEmergency.

The courts MUST guard the separation of powers, and not defer to Trump's naked power grab.

ALERT: Betsy DeVos wants to overhaul how colleges handle sex assault complaints by weakening protections for victims and bolstering the rights of the accused. We OPPOSE this. DeVos' proposed rule changes are dangerous, unconscionable and put sexual harassment victims in harms way

January 30, 2018

The Honorable Betsy DeVos
Secretary of Education
U.S. Department of Education
400 Maryland Avenue SW, Room 5W311
Washington, DC 20202

RE: Opposition to Proposed Rule "Nondiscrimination on the Basis of Sex in Education Programs or Activities Receiving Federal Financial Assistance" by U.S. Department of Education

Dear Secretary DeVos

On behalf of the Lawyers' Committee for Civil Rights Under Law (Lawyers' Committee), we submit comments to the U.S. Department of Education ("the Department") on the proposed changes to Title IX regulations. We are deeply concerned the proposed rule will greatly weaken Title IX's protections for students who are affected by sexual assault and harassment investigations.

The Lawyers' Committee, a nonpartisan, nonprofit organization, was formed in 1963 at the request of President John F. Kennedy to involve the private bar in providing legal services to address racial discrimination. The principal mission of the Educational Opportunities Project at the Lawyers' Committee is to enforce civil rights protections for students and ensure that all children have access to a quality education. Thus, this opportunity to address the civil rights implications of the proposed Title IX regulations – particularly for students of color – is of great interest to our organization. Sexual harassment and violence can have a direct impact on students and school climate. Research shows that survivors of sexual harassment are more likely to drop out of school, and would be most affected by these proposed changes

William Barr sings Jeff Sessions' praises on criminal justice.

What would Coretta Scott King say today regarding Barr's nomination to serve as our next Attorney General?

THE MARTIN LUTHER KING, JR. CENTER
FOR NONVIOLENT SOCIAL CHANGE, INC.
449 Auburn Avenue, N.E. Atlanta, Georgia 30312 (404) 524-1956

March 19, 1986

The Honorable Strom Thurmond, Chairman
Committee on the Judiciary
United States Senate
SD-224 Dirksen Senate Office Building
Washington, D.C. 20510

Re: Nomination of Jefferson B. Sessions
U.S. Judge, Southern District of
Alabama Hearing, March 13, 1986

Dear Senator Thurmond:

I write to express my sincere opposition to the confirmation of Jefferson B. Sessions as a federal district court judge for the Southern District of Alabama. My professional and personal roots in Alabama are deep and lasting. Anyone who has used the power of his office as United States Attorney to intimidate and chill the free exercise of the ballot by citizens should not be elevated to our courts. Mr. Sessions has used the awesome powers of his office in a shabby attempt to intimidate and frighten elderly black voters. For this reprehensible conduct, he should not be rewarded with a federal judgeship.

I regret that a long-standing commitment prevents me from appearing in person to testify against this nominee. However, I have attached a copy of my statement opposing Mr. Sessions' confirmation and I request that my statement as well as this letter be made a part of the hearing record.

I do sincerely urge you to oppose the confirmation of Mr. Sessions.

Sincerely,
Coretta Scott King

That undercount, in turn, will translate into a loss of political power and funds, among other harms, for various Plaintiffs. In light of these and other factual findings, the Court holds that most, if not all, Plaintiffs have standing to bring their claims.

Second, the Court concludes on the merits that Secretary Ross violated the APA in multiple independent ways. Most blatantly, Secretary Ross ignored, and violated, a statute that requires him, in circumstances like those here, to collect data through the acquisition and use of "administrative records" *instead* of through "direct inquiries" on a survey such as the census. Additionally, Secretary Ross's decision to add a citizenship question was "arbitrary and capricious" on its own terms. He failed to consider several important aspects of the problem, alternately ignored, cherry-picked, or badly misconstrued the evidence in the record before him, acted irrationally both in light of that evidence and his own stated decisional criteria, and failed to justify significant departures from past policies and practices — a veritable smorgasbord of classic, clear-cut APA violations. On top of that, Secretary Ross acted without observing procedures required by law, including a statute requiring that he notify Congress of the subjects planned for any census at least three years in advance. And finally, the evidence establishes that Secretary Ross's stated rationale, to promote VRA enforcement, was pretextual — in other words, that he announced his decision in a manner that concealed its true basis rather than explaining it, as the APA required him to do. Notably, the Court reaches all of those conclusions based exclusively on the materials in the official "Administrative Record" — that is, the record of materials collected and submitted by Defendants that Secretary Ross allegedly considered,

Interesting, good find. Funny how a lot of the points - up until the justification attempts - are actually good..if it truly was intended only for dangerous & violent criminals processed through a fair enforcement and justice system. Which most certainly does not exist.

Disturbing, his thought that imprisonment doesn't make people harder, bitter or learn other criminal acts from others while in Prison couldn't be more incorrect. Even guards, I've known many HS friends after 20 years at the TDC completely change into bitter, hateful people.
